DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/30/06 has been entered.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 29-37 and 40 are rejected under 35 U.S.C. 101 because the claimed invention are directed to a plurality of program modules which are operated with a processor. Since, the program modules are not stored on a computer readable medium and executed by a computer. The claimed program modules operable with a processor does not itself perform any useful concrete and tangible result, i.e., no post solution activity, and thus does not fit within the definition of a machine. Therefore, the claimed process do not fall within the product classes, machine and composition of matter.

Allowable Subject Matter

4. Claims 1-28, 38-39 and 41-43 allowed.
